

SOCIALISM IS FRANCE'S PERIL.

INCREASE IN ITS VOTE SHOWS
SPREAD OF PROPAGANDA.New Government's Policy Will Be Tested
Largely With Nationalist Idea; but
Recent Election Shows Strengthened
the other Party to Fight Again.

Paris, May 13.—Any danger to republican institutions in France from such enemies as the Nationalists, Nationalists and Petrole, has disappeared. Indeed, it never existed, despite the Government's dramatic statement of a great plot against the republic.

The real peril is a more latent, but rapidly growing one. It is represented by the general trend of the popular vote. The popular vote last Sunday shows an increase of 15 per cent over that of 1927, but the total vote falls somewhat short of a million.

This, however, represents Socialist opinion in its extreme form. It does not include the excellent Socialist radicals, such as the Communists, who are expected to have about 160 seats in the new Chamber. Add to these about fifteen Nationalists and twenty-nine United Socialists and the number amounts to more than the parliamentary support which the Government will be able to rely upon. It is estimated that the blue will include nearly 200 of the Left Centre Republicans, thus giving it a total strength upon such questions as the separation of Church and State of 300.

Against this is an opposition of 160 Right Centre Republicans and 122 Nationalists and Petrole, so there is an approximate government majority of 232. These figures are deceptive because the blue is of such a composite nature that the Government strength is liable to fall far below that shown upon many important questions.

It is inevitable that Socialist ideas will spread very largely the new Government and will receive increased representation in its personnel. Several Liberal Republicans will retire from the present Chamber. The Premier is at M. Clemenceau's disposal, but it is doubtful if he takes part in the election. It is likely that M. Briand will become President of the Chamber of Deputies and an effort will be made to give him a big majority as a tribute to M. Doumer and his distinguished following.

The result of the election has not much strengthened the strike of the various trades and labor unions. The latter assert that 100,000 men are out. This is certainly an exaggeration, but some branches of industry are crippled. The automobile trade is completely paralyzed, but two-thirds of the jewellers have returned to work. It is safe to say that the eight hour movement will fail completely, at least for the present.

Six thousand workmen employed in the book trade as printers, machinists or binders held a meeting to-day in the Tivoli dance hall. One of the orators demanded that all printers be prevented from working. The opponents of the proposition pointed out that the subscriptions received by the men who were on strike from the men at the establishments which had accepted union conditions were too valuable to be sacrificed by such a measure. The motion was, consequently, dropped.

The meeting adopted a resolution declaring that the police were in league with the employers and decided to continue the struggle to a finish. The meeting dissolved peacefully under the eyes of an imposing force of police and soldiers, including cavalry, which was stationed in the Place de la Republique.

Paris has resumed its normal aspect in most respects. Tourists are returning from all directions and the hotels are again overflowing, chiefly with Americans.

MODERN ART OFFENDS TAILORS.

Careless Painters and Sculptors Are Forgetting Buttonholes and Seams.

Special Cable Dispatch to THE SUN. LONDON, May 12.—The trade journal The Tailor and Cutter omits to send a representative to Burlington House to criticize the Royal Academy from a sartorial viewpoint this year. Its critic sadly declares that contemporary painters cannot see the details of clothing, and in consequence utterly fail to produce any art that will last. In Sargent's portrait of Lord Roberts, the top button of the tunic is completely missing. The tunic has no buttonholes and the breeches have no seams. Formerly the tailors thought well of Sargent, but now the only satisfactory Academician is the sculptor William Goscombe John, whose seams, buttonholes, lapels, etc., in a modern figure are irreproachable.

GET YOUR HAIR IRONED!

And Get It Done Hot If You Don't Want to Be Gray Headed.

Special Cable Dispatch to THE SUN. LONDON, May 12.—The scientific sensation of the week is Prof. Metchnikoff's discovery of the cause of gray hair. It appears that it is due to the chromophage, which expels the coloring pigment from the hair or drives it from the roots. Prof. Metchnikoff's remedy is to use a hot iron. As the temperature should be 100 degrees Fahrenheit, the process would seem to be painful. Hairdressers hope that the discovery will lead to good business.

The professor noticed that women who used curling tongs to wave their hair became gray later than those not using them and this caused him to make an investigation which led to his discovery.

KROUPENSKY TO COME HERE.

Will Be Counselor of Russian Embassy, of Which He Was Once Secretary.

Special Cable Dispatch to THE SUN. CONSTANTINOPLE, May 12.—M. Kroupensky has been appointed Counselor of the Russian Embassy in Washington. He is a man of great ability and a pronounced admirer of the United States. He is a supporter of a Russo-American entente, and is credited with harboring great expectations of financial possibilities in the United States in case of a new Russian loan.

ITALIAN STRIKE IS OVER.

Though Socialists in Chamber of Deputies May Still Make Trouble.

Special Cable Dispatch to THE SUN. ROME, May 12.—The strike is over everywhere. It is likely, however, that the Socialist Deputies, who resigned their seats in the Chamber because the Government refused to entertain a motion to prohibit the use of armed forces in the repression of disorders but whose resignations the Chamber refused to accept, will try to provoke complications.

But everybody is tired and condemns the strikes, which are recognized as having been useless.

HUMPER LIFE IN PARLIAMENT.

British Lawmakers Dining Dining Dinners With Water on the Nose.

Special Cable Dispatch to THE SUN. LONDON, May 12.—Some of the Labor members of the House of Commons are beginning to (at) take out of action. One of them recently informed an audience that not all the members of the House who are supposed to be teetotalers observe the name, for he had seen some of them taking wine with their dinner. He continued to name them, and reported that temperance is making great strides in the House.

There were only four teetotalers in the last Parliament, while there are perhaps 125 now. A tale is told of how the other evening a number of the teetotalers of the House were dining at the dining room, where over one hundred dinners were being eaten. Not one member was drinking wine. He declared that the members were eating the Kitchen Committee into the bankruptcy court.

The new dining dinner is becoming increasingly popular. Unfortunately, it does not yield as much profit, while the accompanying glass of water yields less. The menu of yesterday's dining dinner was most interesting, including, spinach, roast saddle of mutton, potatoes boiled, mashed, baked and fried, cabbage, custard pudding, apple tart, Cheddar and Cheshire cheese, and bread and butter.

BIG SALE OF CRUIKSHANKS.

Fine Examples of the Illustrator's Work Sell Well in London.

Special Cable Dispatch to THE SUN. LONDON, May 12.—A six days sale at Sotheby's of the late Edwin Truman's collection of George Cruikshank's works came to an end to-day. The total realized at the sale was \$24,770. "The Holiday Grammar," A. Crowquill, with colored etchings, the finest copy in existence of one of the rarest of Cruikshank's works, brought \$35; Dickens's "Sketches by Boz," with forty etchings, \$35; Grimm's "German Popular Stories," second volume, first edition, \$40; "The Humourist," with forty etchings by Cruikshank, \$35; "Life in London," with thirty-five colored plates by George and R. Cruikshank and numerous woodcuts, \$25; "The Meteor or Monthly Compiler," two volumes in one, November, 1813, to July, 1814, with thirty-two etchings, \$25; "Town Talk or Living Manners," colored folding caricatures, seven by Cruikshank, \$25.

"The Humourist" cost Mr. Truman 50 cents. "The Holiday Grammar" cost him 75 cents.

\$25,000 FOR A BOTTLE OF LI. PANEL.

A Hopper, Two Helms and a Titan Bring Good Prices at Christie's.

Special Cable Dispatch to THE SUN. LONDON, May 12.—One hundred and forty-two pictures were sold at Christie's to-day for \$110,110. Hopper's "A Portrait of Mrs. Hone" was sold for \$12,075. A circular panel of the Virgin and Infant Christ and St. John, attributed to Botticelli, brought \$20,250; small "Portrait of a Cardinal," formerly the property of the Count de Castellan, by Michael Holbein, \$15,750; a pair of portraits by Hans Holbein, \$15,750; "Portrait of Lorenzo di Medici," Titian, \$12,025; "Landscape," Ryndael, \$2,520.

UPHOLDS JAPAN'S INVENTOR.

Indignation Over Assertion That Kimura Stole Reunior's Wireless Phone.

Special Cable Dispatch to THE SUN. TOKYO, May 12.—There is widespread indignation over the statement by the Berlin Tagblatt that Prof. Kimura of the Imperial Navy stole Reunior's wireless telephone method. The Reunior family officially denies the charge. The Tagblatt's statement demonstrates that Kimura's system is radically different. Kimura ten years ago won distinction in pure mathematics at Yale. Later he developed the Japanese system of wireless telegraphy which contributed materially to Admiral Togo's victory over Rojstrensky's fleet.

X-SCIENTIST HAD OPIATES.

Hypodermic Syringe Also Found on Dr. Adecock When Arrested.

Special Cable Dispatch to THE SUN. LONDON, May 12.—Dr. Adecock, the Christian Science practitioner who is charged with having caused the death of Major Whyte, whom he attended, was arrested to-day. When he was searched morphine and strychnine and a hypodermic syringe were found on him. Dr. Adecock's explanation of these hardly conforms with his profession of Christian Science. He said he was taking the drugs for indigestion. Bail was refused.

DOER PLAY SCORES IN LONDON.

Lena Ashwell's Production of "The Shulamite" Likely to Be a Success.

Special Cable Dispatch to THE SUN. LONDON, May 12.—Lena Ashwell produced an emotional drama of Boer life entitled "The Shulamite" at the Savoy Theatre to-night. It is likely to be one of the greatest successes of the season. It was greeted with enthusiasm. The acting of Miss Ashwell and Norman McKinnell was especially applauded. The latter clear cut portrait of a Boer farmer was a genuine triumph, and it received an ovation.

NOT A GERMAN COALING STATION.

Report That an Island Off Borneo Would Be Occupied Denied.

Special Cable Dispatch to THE SUN. BERLIN, May 12.—The Magdeburg Gazette reports that the statement of the Paris correspondent of the London Times to the effect Germany had occupied an island on the southwest coast of Borneo for a coaling station is a malicious invention. The Times correspondent said that the Hamburg and North German Lloyd steamship lines were establishing a coal depot on the island of Laut, on the southeast coast of Borneo, which would eventually be turned over to the German Government for naval purposes.

THEY TAXED CARUSO IN LONDON.

Which Led the Tenor to Declare That His Welcome Wasn't Pleasant.

Special Cable Dispatch to THE SUN. LONDON, May 12.—"London is a nice place," said Caruso, the tenor, to an interviewer, "but I did not have a pleasant welcome. The first letter I received was a demand that I pay an income tax to the amount of \$915. What have I done?"

Reichstag Salary Bill Advanced.

Special Cable Dispatch to THE SUN. BERLIN, May 12.—A bill providing for the annual payment to its members of 3,000 marks and free travelling while the House is in session passed its second reading in the Reichstag to-day.

"Raffles" Pleases in London.

Special Cable Dispatch to THE SUN. LONDON, May 12.—Charles Frohman presented "Raffles" at the Comedy Theatre to-night, with Gerald Du Maurier in the title role. The play had a splendid reception, and has every prospect of success.

MANY PEOPLE HAVE

CATARRH OF KIDNEYS

AND DON'T KNOW IT.

Backache a Warning Symptom of Kidney Trouble.

Pe-ru-na is Invaluable in Such Cases.

Prominent Persons Who Have Been Cured.

Mr. J. Byler, 1205 Ohio Street, Des Moines, Ia., writes: "I wish to state my appreciation of your excellent remedy. I have always enjoyed excellent health, except frequent and painful attacks of bladder trouble, which doctors failed to relieve of cure. Upon recommendation I used Peruna, to my utter satisfaction, not having had an attack now for four or five years."—J. Byler.

Dangerous Kidney Diseases Cured.

WHEN the kidneys become affected by catarrh, either from cold, overwork or an extension of catarrh to some other organ, they fail to perform their normal functions. It is the work of the kidneys to excrete from the blood many of the poisons which accumulate in the body. If the kidneys fail in their work, the poisons accumulate to such an extent as to cause convulsions, which often prove fatal. Peruna, by relieving the kidneys of their congested and catarrhal conditions, leaves them free to act in a normal manner. It also strengthens the action of the heart, equalizing the circulation of the blood in all parts of the system. A remedy that relieves catarrhal de-

rangements of the kidneys should certainly be considered a household remedy. Peruna is such a remedy.

High Commendation for Pe-ru-na. Mr. C. B. Fizer, Mt. Sterling, Ky., writes: "I have suffered with kidney and bladder trouble for ten years past. Last March I commenced using your Peruna, and continued for three months. I have not used it since, nor have I felt a pain. I believe that I am well, and I therefore give my highest commendation to the curative qualities of Peruna." Neglected catarrh of the kidneys is apt to develop into Bright's Disease or diabetes, when a cure is almost an impossibility. We have on file many testimonials like the ones given here.

We can give our readers only a slight glimpse of the vast array of unsolicited endorsements we are receiving every month. No other physician in the world has received such a volume of enthusiastic letters of thanks as Dr. Hartman for Peruna.

Revised Formula. "For a number of years research have come to me from a multitude of grateful friends, urging that Peruna be given a slight laxative quality. I have been experimenting with a laxative in the medicine, which, in my opinion, can only enhance its well-known beneficial character."—S. B. HARTMAN M. D.

BATTLESHIP JOINS THE NAVY.

The New Jersey Is Accepted by the Government at the Charleston Yard.

BOSTON, May 12.—The new battleship New Jersey, built at the Fore River shipyards, took her place officially this afternoon as one of the ships in the United States navy. The hull craft was delivered to the Government at the Charleston Navy Yard about 2 o'clock. The naval officers who have made a complete inspection of the craft reported her all right. Rear Admiral Snow, the yard commandant, made a brief inspection and received and accepted for the craft. The crew, which had been assembled on the receiving ship Walcott, then marched aboard. Capt. L. R. Harris, acting Captain of the yard, read the orders for the ship's commissioning; Capt. W. W. Kimball, her first commander, read the orders to the command, and without further ado or ceremony the Stars and Stripes were hoisted and the crew began bustling to get the ship ready to live in.

It will be about three months before the New Jersey leaves the yard ready for service.

PILOTS' HELP TO THE NEEDY.

Contribution to San Francisco Brethren Increased—Van Schaick's Case.

Members of Harbor No. 1 of the American Pilots' Association at a meeting held last night at the Grand Opera House considerably increased their original contribution of \$2,000 for the relief of members of the association who suffered losses in the San Francisco fire. Capt. Luther Dow, the local manager, was not prepared to say just how much money will be given by the pilots here, but was sure the sum would be a substantial one. The case of Capt. Van Schaick, master of the Gen. Slocum, was discussed from the point of view that the association would assist him in his defense at his next trial, in October; but what decision, if any, was arrived at the pilots refused to say.

NEW CANADIAN GOVERNORS.

Dunsinuir Named in British Columbia—McMillan of Manitoba Reappointed.

OTTAWA, May 12.—The Hon. James S. Dunsinuir has been appointed Lieutenant-Governor of British Columbia, in succession to Sir Henry Jolliffe, who retired, whose term expired some time ago but who remained in office till the appointment of his successor. Dunsinuir is the well-to-do mine owner of Nanaimo. Sir Daniel McMillan has been reappointed Lieutenant-Governor of Manitoba.

Thirty Indictments Result of Passaic Riot.

PATERSON, N. J., May 12.—Thirty indictments in one batch were turned in by the Grand Jury to-day, all the cases relating to the Passaic riot last week. The rioters stoned and otherwise hurt five Passaic policemen. All the indicted men are in jail, most of them being too poor to furnish bail. Most of them are married men, with families, and all day long Italian women with children take up their stand before the jail, anxious to get tidings of the prisoners. It is expected that the men will be arraigned Monday and their trials set for an early date.

Kansas Socialists Nominates State Ticket.

EMPORIA, Kan., May 12.—The State convention of Socialists, in session here, to-day nominated a full State ticket, headed by Harry Gillman of Oswego for Governor.

Grape-Nuts

A food made from elements especially selected for

Brain Building.
